Tennessee Energy Policy Office
Energy Efficiency and Conservation Block Grants
Wm. Snodgrass TN Tower, 10th floor
312 Rosa Parks Avenue
Nashville, TN 37243-1102

The following assurance is provided to receive a points preference for consideration as compliance with grants guidelines used as a basis for awarding local government funding for the Tennessee Energy Efficiency and Conservation Block Grant under the American Recovery and Renewal Act of 2009. We have communicated with the recognized agency responsible for the local government jurisdiction with oversight for building codes and requested consideration for adoption of the minimum residential building energy standards in the 2009 Tennessee Clean Energy Future Act.

This letter serves to acknowledge and provide assurance that within the limits of my authority, *CITY/COUNTY* will not choose to opt out of the minimum residential building energy standards in the 2009 Tennessee Clean Energy Future Act (Public Chapter 529) as promulgated as rules by the Tennessee Department of Commerce and Insurance.

NAME
CITY / COUNTY Mayor
